

Mackensie Jack

Software Engineer

SUMMARY

Creative, motivated software engineer with an interest in UX and UI and a background in childcare, art, and technology. Have a library of full stack web apps as well as Agile team and freelancing experience looking to bring my skills to a company where I can contribute to a product used globally.

To learn more about me, I really recommend my [portfolio site](#), which showcases my art as well!

WORK EXPERIENCE

Software Engineer at 100Devs

December 2022 — Present

- Collaborate with several teams of developers to build responsive web applications
- Build semantically structured full-stack web applications
- Apply Agile methodologies like SCRUM for project management

Recent Projects:

[The Hyrule Compendium Game Guide \(fullstack web app\)](#) - User enters a query to access the Hyrule Compendium API. Is a quick access and well-designed digital game guide for Breath of the Wild.

[Secondhand \(fullstack web app\)](#) - A social site for sharing gently used goods for free under the Buy Nothing Project, centralizing the movement instead of spreading it across Facebook groups. Features accounts, messages, posts, feed, likes, comments.

[Awaken Hair](#) - A static site mock up for a client, using material design principles, several component libraries. Used this project to make a tutorial for my [blog](#) as well!

Other projects: Fairfield Farm website, Blossom (an app for caregivers)

Geek Squad Consultation Agent at Best Buy

March 2022 – Present

- Provide positive, timely service to clients
- Understand technology issues, asking questions, listening, asking follow-up questions, taking detailed notes and providing accurate time estimates for next steps
- Help set up, troubleshoot, and repair devices (hardware and software related)
- Monitor service queues and provide status updates to clients
- Clearly communicate with team

Freelance Artist | Luna Moth Dolls | Albany, NY

June 2017 — March 2020

I worked as an independent artist, running a successful online business where I offered commissions for artist dolls.

- Fiber-crafting, sewing, painting, and sculpting to accommodate the needs of my clients
- SEO, social media marketing, branding, business personality and rapport
- Shopify website, HTML/CSS that increased my sales twice over upon launching

Nanny | Albany, NY
